

Delivering the best crypto trading experience in the world

UX/UI Designer (Remote)

Mission

At Atani, we help traders and investors navigate the crypto ecosystem. Atani provides an advanced platform for end-to-end crypto trading and tax management to users in 80+ countries. We enable portfolio monitoring, market analysis, trade execution and tax reporting for 1,500+ cryptocurrencies across 20+ of the major global crypto exchanges (Binance, Kraken, Coinbase Pro, Huobi, Bitfinex, Bitstamp, KuCoin, Bittrex, bitFlyer, Poloniex, OKEx, Gemini and more).

In a nutshell

To massively scale the growth of Atani, we are looking for a passionate UX/UI Designer to contribute to the company's vision.

What you will do

- Take full responsibility for the design of engaging user interface components (web & mobile app) using prototyping software tools such as Figma.
- Efficiently work with our Product and Engineering teams to gather and transform requirements into compelling designs, iterating and validating through prototypes.
- Ensure brand and identity are deeply integrated throughout the user experience.
- Improve our design system and contribute to its development.

Who you are

Must

- Speak Spanish and English (day-to-day in Spanish).
- 3+ years of experience as UX/UI Designer for complex web and mobile apps .
- Experience working with Figma to create wireframes, flows and prototypes.
- Ability to understand users' needs, conceptualize and execute a simple and frictionless UX.
- Excellent attention to detail.

Bonus points

- Crypto enthusiast
- Experience working in agile environments with cross-functional teams, such as startups.
- Entrepreneurial, self-sufficient, resourceful and feel comfortable working in a small high growth startup.

Why Atani?

- Full remote. Global mission – work from anywhere in the world.
- Enjoy working with the best: tier-one team and crypto traders since 2013.
- Learning: take part in shaping the future of crypto trading.
